

How to support home learning

Follow this guidance to create a positive learning environment at home

Be realistic about what you can do

- › **You're not expected to become teachers** and your children aren't expected to learn as they do in school. Simply **providing your children with some structure** at home will help them to adapt. Use the tips below to help you make this work for your household
 - › **Experiment** in the first, then **take stock**. What's working and what isn't? Ask your children, involve them too
 - › **Share the load if there are 2 parents at home**. Split the day into 30-40 minute slots and take turns so you can do your own work
 - › **Take care of your own health and wellbeing**. This will be new for your entire household, so give it time to settle. Take a look at the links at the end of this factsheet for some advice on mental health and wellbeing
-

Keep to a timetable wherever possible

- › **Create and stick to a routine** if you can. This is what children are used to. For example, eat breakfast at the same time and make sure they're dressed before starting the 'school' day – avoid staying in pyjamas!
 - › **Involve your children in setting the timetable** where possible. It's a great opportunity for them to manage their own time better and it'll give them ownership
 - › **Check in with your children and try to keep to the timetable, but be flexible**. If a task/activity is going well or they want more time, let it extend where possible
 - › If you have more than 1 child at home, **consider combining their timetables**. For example, they might exercise and do maths together – see what works for your household
 - › **Designate a working space if possible**, and at the end of the day have a clear cut-off to signal school time is over
 - › **Stick the timetable up on the wall** so everyone knows what they should be doing when, and tick activities off throughout the day
 - › **Distinguish between weekdays and weekends**, to separate school life and home life
-

Make time for exercise and breaks throughout the day

- › **Start each morning with a [PE lesson](https://www.youtube.com/playlist?list=PLyCLOPd4VxBvQafyve889qVcPxYEjdSTI)** at 9am with Joe Wicks
<https://www.youtube.com/playlist?list=PLyCLOPd4VxBvQafyve889qVcPxYEjdSTI>
- › If you have a **garden, use it regularly**. If you don't, try to get out **once a day** as permitted by the government (households can be together outdoors but 2 metres apart from others)

- Get your children to **write in a diary what they did each day** – this can be a clear sign that the 'school' day has ended

Other activities to keep children engaged throughout the day

- Where you have more freedom in the timetable, **make time for other activities**. Add some creative time or watch a dance video from [Go Noodle](https://www.youtube.com/user/GoNoodleGames/featured) to get the heart-rate going
<https://www.youtube.com/user/GoNoodleGames/featured>
- Get your children to **write postcards** to their grandparents or to pen pals
- Ask **other family members not to listen to your children read** on FaceTime (or ask them to read to your child)
- **Give them chores** to do so they feel more responsible about the daily routine at home
- Ask them to **help you cook** and bake
- Accept that **they'll probably watch more TV/spend time on their phone** – that's ok but you might want to set/agree some screen time limits
